

# National Bladder and Kidney Cancer Symposium 2012

## Preliminary Program

### Thursday, 9 February 2012 - Kidney Cancer

8.25-8.30	Welcome		
8.30-10.00	Session 1: Diagnosis and evaluation		
8.30-9.00	Cancer genomics: Unlocking the future of RCC therapy	Prof M Blute	
9.00-9.20	Origins and classification of renal cell carcinoma	Dr A Ryan	
9.20-9.40	State of the art diagnostics: cross sectional and metabolic imaging	A/Prof N Lawrentschuk	
9.40-10.00	Natural history of renal cell carcinoma - who needs to be treated?	TBC	
10.00-10.30	MORNING TEA		
10.30-12.00	Session 2: Surgical management of RCC		
10.30-11.30	How and why I do: Open partial nephrectomy Lap partial nephrectomy Robotic-assisted partial nephrectomy	Prof M Blute Dr H Lau Dr J Porter	
11.30-11.45	What are the limits of minimally invasive partial nephrectomy?	Dr J Porter	
11.45-12.00	What are the limits of laparoscopic nephrectomy?	Dr D Sofield	
12.00-13.00	LUNCH		
13.00-14.30	Session 3: Small renal masses		
13.00-13.20	What is the role of renal biopsy: experience of over 250 cases	Prof R Cohen	
13.20-13.55	Emerging therapies for small renal masses Percutaneous ablation Stereotactic radiosurgery	Prof K Thomson Dr S Siva	
13.55-14.15	Advances in surgery-Image guided surgery and immuno-fluorescence	Dr J Porter	
14.15-14.30	Case discussion		
14.30-15.00	AFTERNOON TEA		
15.00-17.00	Session 4: Advanced RCC	15.00-17.30	Concurrent Session - Nurses Program/Twilight Meeting
15.00-15.45	Surgical management of advanced and metastatic RCC Prof M Blute	15.00-15.15	Nurse led cystoscopy/problem solving Janice Downey
		15.15-15.30	Current management strategies for superficial bladder cancer Rosemary Watson
15.45-16.25	Use of targeted therapy in 2012 High risk disease: Neoadjuvant vs adjuvant therapy Metastatic disease: role of cytoreductive nephrectomy Dr Axel Bex	15.30-16.00	Cystectomy & bladder reconstruction "The Surgeons Perspective" Prof Urs Studer
		16.00-16.15	Cystectomy & bladder reconstruction "The Nurses Perspective" Sarah Smith
16.25-16.40	What's new in systemic therapies? A/Prof I Davis	16.15-16.45	What about me "The Patients Perspective" TBA
16.40-17.00	Case discussion	16.45-17.15	Ileal Conduit - Wound and Ostomy Management Carolyn Mornane
		17.15-17.30	Q&A session
17.30-19.00	Welcome Cocktail Reception		

# National Bladder and Kidney Cancer Symposium 2012

## Preliminary Program

Friday, 10 February 2012 - Bladder Cancer		
8.30-10.00	Session 1: Epidemiology, diagnosis and evaluation	
8.30-9.10	Bladder cancer in Australia: What are our results? Outcomes in South Australia Outcomes in Victoria	Dr M Siddons Prof M Frydenberg
9.10-10.00	Advances in: Bladder tumour markers Endoscopic evaluation and management of bladder tumours Histological classification	TBC A/Prof D Murphy A/Prof J Pedersen
10.00-10.30	MORNING TEA	
10.30-12.00	Session 2: Non muscle-invasive bladder cancer	
10.30-10.45	Summary of international guidelines	Dr Paul Sved
10.45-11.20	Controversies in NMIBC: High risk non muscle invasive urothelial cancer: bladder preservation or early cystectomy? Positive cytology and no evidence of disease	Prof U Studer A/Prof M Patel
11.20-11.45	The use of intravesical therapy in 2012: practical strategies	Prof D Hayne
11.45-12.00	Case discussions (high risk superficial cancer)	
12.00-13.00	LUNCH	
13.00-15.00	Session 3: Muscle invasive bladder cancer	
13.00-14.15	State of the art lectures: Bladder preservation strategies in 2012 Why and how to do a nerve sparing radical cystectomy Why and where to do the pelvic lymph node dissection in cystectomy patients	Prof M Gospodarowicz Prof U Studer Prof U Studer
14.15-14.35	Optimising surgical outcomes: Neoadjuvant vs adjuvant chemotherapy	Prof M Rosenthal
14.40-15.00	Emerging technology – Robotic radical cystectomy	Dr Geoff Coughlin
15.00-15.30	AFTERNOON TEA	
15.30-17.00	Session 4: Take home messages	
15.30-16.00	Debate: Radical cystectomy remains first line treatment of T2 bladder cancer For: Prof Urs Studer Against: Prof M Gospodarowicz	
16.00-16.20	Palliation of advanced bladder cancer: Role of radiotherapy Systemic chemotherapy	Prof M Gospodarowicz Prof M Rosenthal
16.20-16.40	Non-urothelial bladder cancer	Dr P Sved
16.40-17.00	Upper tract urothelial cancer	Prof M Blute

Saturday, 11 February 2012 - Workshops		
Additional cost will be incurred to attend		
8.30-11.30	<b>Workshop 1: Nerve sparing cystectomy and orthotopic bladder substitution: all you need to know in order to obtain good results</b> Prof Urs Studer <ul style="list-style-type: none"> <li>• Patient selection</li> <li>• Nerve-sparing cystectomy</li> <li>• Which bowel segments to be used for orthotopic diversion</li> <li>• How to do the orthotopic bladder substitute and how to bring it down to the pelvic floor</li> <li>• Postoperative management</li> <li>• Treatment of complications during follow-up</li> </ul>	<b>Workshop 2: Robotic partial nephrectomy</b> Dr Jim Porter <ul style="list-style-type: none"> <li>• Set-up/access – transperitoneal approach</li> <li>• Set-up/access – retroperitoneal approach</li> <li>• Use of imaging</li> <li>• Options for renorrhaphy</li> <li>• Unedited case</li> </ul>
		<b>Workshop 3: Primary radiotherapy for bladder cancer</b> Prof Mary Gospodarowicz

Supported by

UROLOGICAL SOCIETY OF AUSTRALIA AND NEW ZEALAND
